	Research Methods	8-12
--	Undoing Racism in Public Health	1

Dissertation Credits: Minimum 27 credits

Course	Name	Credits
NUTR 800	Dissertation (A, W, Sp, S)	27

Total Credit Requirements: 105-117

GCDP Requirements

PhD students enrolled in RDN training through the GCPD will need to complete the following courses:

- GCPD Seminar (NUTR 561A)
- Food Safety and Health (NUTR 545)*
- Nutrition Education Principles and Practice (NUTR 536)
- Nutritional Counseling for Chronic Disease (NUTR 560)
- Nutrition in Acute Care (NUTR 563)
- Orientation to Clinical Dietetics Practice (NUTR 559)

The timing of PhD student course and internship requirements will be coordinated on a case by case basis to accommodate their dissertation research projects.

*GCPD students holding a DPD verification statement waive out of NUTR 545.
