BIOST	Biostatistics	8-12
--	Undoing Racism in Public Health	1

Dissertation Credits: Minimum 27 credits

Course	Name	Credits
NUTR 800	Dissertation (A, W, Sp, S)	27

GCDP Requirements

PhD students enrolled in RDN training through the GCPD will need to complete the following courses:

- GCPD Seminar (NUTR 561A, 1 credit)
- Maternal and Pediatric Nutrition (NUTR 526)
- Nutrition Education Principles and Practice (NUTR 536)
- Nutritional Counseling for Chronic Disease (NUTR 560)
- Nutrition in Acute Care (NUTR 563)
- Orientation to Clinical Dietetics Practice (NUTR 559)
- Supervised Practice/Practice Experiences (NUTR 561, 30 credits)

The timing of PhD student course and internship requirements will be coordinated on a case by case basis to accommodate their dissertation research projects.
